EXPERIENCE

Anime Place

https://anime-place.netlify.app/

Anime Place is a web application that allows users to watch all of their favorite anime without a monthly subscription fee. The application showcases recent, and popular anime, along with anime movies.

Application built using React, React Redux Toolkit, Material UI, React Router DOM, and React Player

CryptoVerse

https://crypto-verse-jalen.netlify.app/

CryptoVerse is a web application designed for crypto traders. It allows users to track global crypto statistics, along with providing relevant information about individual crypto currencies such as Bitcoin, Ethereal, etc.

Application built using React, Ant Design, HTML React Player, Milify, Moment, React Router DOM, React Redux

Travel Advisor

https://travel-advisor-jalen.netlify.app/

Travel Advisor is a web application that uses the Google Maps API, along with the Travel Advisor API in order to display data about restaurants, hotels, and main attractions in your area.

Application built using React, Google Maps React, React Dom, React Icons, Material UI

Portfolio Website

https://jalenj.com/

This is a portfolio website, designed and developed in order to showcase programming projects and give insight about the author's personality.

Application built using React

ABOUT ME

Programming has never felt like just a job or work. It didn't quite feel like just a hobby either. It's one of the first things I do when I wake up and one of the last things I do before I go to bed. I'm tempted to call it a lifestyle at this point.

EDUCATION

Pace University Seidenberg School of CSIS, New York, NY — B.S. *Computer Science* (Incomplete)

SKILLS

- React.js
- JavaScript
- HTML
- CSS
- Git
- React Redux
- React Router
- React Hooks
- Redux Persist
